

#1 Cost-Effective Backup for MSPs and Businesses

Backup from Any Location

VMs, Servers, Endpoints, Cloud VMs, SaaS, DBs/Applications, NAS/File Share

Store Backup Anywhere

On-Premise/Remote Storage, Your Own Public Cloud, BDRCloud

Centralized Management

BDRCloud-Hosted (or) BDRSuite's Self Hosted Management Console

BDRCloud Overview

BDRCloud is a comprehensive and cost-effective backup solution designed to backup diverse IT workloads from any location, including VMs (VMware, Hyper-V), Servers & Endpoints (Windows, Linux, Mac), SaaS Applications (Microsoft 365, Google Workspace), NAS/File Shares and Databases & Applications (Microsoft Exchange Server, SQL Server, SharePoint Server, PostgreSQL, MySQL).

You can store backup on built-in secure BDRCloud storage or use your own Public Cloud - S3, Azure, Google, Wasabi, Backblaze, MinIO & other S3-compatible storage. With the BDRCloud-hosted centralized management console, you can centrally manage the entire backup infrastructure and quickly recover from data loss or ransomware attacks—all at an affordable price.

Key Features

VM Backup & Recovery

Backup VMware and Hyper-V virtual machines without the need for agents, ensuring seamless protection and quick recovery.

Endpoint Backup & Recovery

Securely backup Windows, Linux, and Mac endpoints, safeguarding user data and ensuring quick restoration in case of device failure or data loss.

NAS Backup & Recovery

Efficiently backup NAS and file shares, ensuring your network storage data is protected and easily recoverable.

Direct-to-Cloud Backups

BDRCloud

Utilize our reliable & secure BDRCloud Storage
BDRCloud on Wasabi | BDRCloud on Amazon S3

Bring Your Own Cloud

Use your existing Private/Public Cloud Storage
**Amazon S3 | Azure Blob | Google Cloud | Wasabi
Backblaze | MinIO | Other S3 Compatible Storage**

Server Backup & Recovery

Backup Windows and Linux servers with Disk-Image & File-Level backups, ensuring critical data is secure and recoverable.

SaaS Backup & Recovery

Comprehensively backup Microsoft 365 and Google Workspace data, protecting from accidental deletion and other threats.

Database/Application Backup & Recovery

Backup Exchange Server, SQL Server, SharePoint, MySQL, ensuring DB/App is always protected & available.

Flexible Storage

Store backups on BDRCloud hosted on Wasabi or S3, or use your own public cloud like Amazon S3, Azure Blob, Google Cloud, Wasabi, Backblaze B2, MinIO, or other S3-compatible storage.

Cloud-based Management Console

Manage, configure, and monitor all your backups from BDRCloud-hosted centralized management console, accessible from anywhere.

Flexible Recovery

Restore the backup data the way you need it, such as an entire VM, specific disks, individual files/folders, or application-items.

Ransomware Protection & Recovery

Protect your backups from ransomware threats with immutable backups and quickly restore data to mitigate the impact of ransomware attacks.

Remote Backup

Securely backup virtual machines across any network and from any location, offering flexibility and ensuring data protection even for remote sites.

Automatic Backup Scheduling

Schedule backups to run every 15 minutes, hourly, daily, weekly, monthly, one-time, or manually, ensuring consistent protection.

Data Encryption & Retention

Encrypt backups and retain data for days, weeks, months, or years, and ensure compliance with regulations like HIPAA, GDPR, SOC 2, etc.

Highly Rated
Backup Solution by Customers,
MSPs, Channel Partners

“

We use BDRSuite for backup purposes and provide backup as a service to our customers. My company has been able to create a good income with a relatively small investment in BDRSuite. The flexible hybrid solution that BDRSuite provides along with reasonable pricing made us decide for this product instead of its competitors.

What Makes BDRCloud Stand Out from Other Backup Solutions

- › Cost-Effectiveness – Significant savings compared to competitors
- › 24/7 Responsive Technical Support
- › Ease of Use and Management with minimal learning curve
- › Quick Setup and deployment
- › No edition complexities. One edition for all backup needs

Backup Simplified with Zero Hardware Investment

- › BDRCloud-hosted Centralized Management Console
- › Fully Managed in BDRCloud
- › No Hardware Investment Required
- › Cut Local Infrastructure Costs
- › Quick and Simple Setup
- › Automatic Upgrades & Maintenance
- › Accessible From Anywhere, Anytime
- › Scalable for Any Client Size
- › Use Built-in Secure BDRCloud Storage or Bring Your Own Cloud

Reports & Notifications

Receive detailed reports and instant email alerts about the status of each task (backup/recovery). This keeps you informed and enables prompt action when needed.
