#1 Cost-Effective NAS/File Share Backup for Businesses and MSPs

Backup from Any Location

VMs, Servers, Endpoints, Cloud VMs, SaaS, DBs/Applications, NAS/File Share

Store Backup Anywhere

On-Premise/Remote Storage, Your Own Public Cloud, BDRCloud

Centralized Management

BDRCloud-Hosted (or) BDRSuite's Self Hosted Management Console

BDRCloud for NAS/File Share Backup & Recovery

BDRCloud offers a robust and cost-effective solution to ensure the safety and availability of your NAS and file share data. This solution is perfect for businesses needing to perform regular backups, protect against accidental deletions, and recover quickly from anywhere and anytime.

BDRCloud can be an ideal choice as it includes efficient data compression, storing data in your own cloud or the BDRCloud, and detailed reporting to keep you informed about your backup status. Also, ideal for MSPs and organizations that require reliable data protection and swift recovery capabilities, BDRCloud helps maintain business continuity and operational efficiency.

Direct-to-Cloud Backups

BDRCloud

Utilize our reliable & secure BDRCloud Storage

Bring Your Own Cloud

Use your existing Private/Public Cloud Storage

Amazon S3 | Azure Blob | Google Cloud | Wasabi
Backblaze | MinIO | Other S3 Compatible Storage

Key Features

File-Level Backup

Backup the critical files and folders on your Linux machines, ensuring comprehensive data protection.

Incremental Backup

Backup only the changes since the last backup, reducing storage requirements and enhancing backup efficiency.

Flexible Storage Options

Store backups on BDRCloud, or use your own public cloud like Amazon S3, Azure Blob, Google Cloud, Wasabi, Backblaze B2, MinIO, or other S3-compatible storage or On-Premises (local/remote storage).

Automatic Backup Scheduling

Schedule backups to run every 15 minutes, hourly, daily, weekly, monthly, one-time, or manually. This automation ensures your data is consistently protected without manual intervention.

Data Retention & Compliance

Retain data for as long as necessary, whether days, weeks, months, or years, and ensure compliance with regulations like HIPAA, GDPR, and SOC 2.

Backup Encryption

Protect your backups with encryption during transit and at rest, and add a custom password for an extra layer of security. This ensures that your sensitive data remains secure against unauthorized access.

Efficient Data Compression

Optimize storage utilization and enhance backup performance through the data compression technique. This reduces the amount of storage required for backups, leading to cost savings and efficient data management.

Cloud-based Management Console

Manage, configure, and monitor all your backups from BDRCloud-hosted centralized management console, accessible from anywhere.
Remote Backup

Securely backup virtual machines across any network and from any location, offering flexibility and ensuring data protection even for remote sites.

What Makes BDRCloud
Stand Out from Other Backup Solutions

> Cost-Effectiveness – Significant savings compared to competitors
> 24/7 Responsive Technical Support
> Ease of Use and Management with minimal learning curve
> Quick Setup and deployment
> No edition complexities. One edition for all backup needs

Backup Simplified with
Zero Hardware Investment

> BDRCloud-hosted Centralized Management Console
> Fully Managed in BDRCloud
> No Hardware Investment Required
> Cut Local Infrastructure Costs
> Quick and Simple Setup
> Automatic Upgrades & Maintenance
> Accessible From Anywhere, Anytime
> Scalable for Any Client Size
> Store backup on BDRCloud Storage or on your own Private/Public Cloud or On-premise storage (NAS, SAN)

Compliance Adherence

Ensure adherence to industry-specific compliance standards with a suite of backup and recovery features. This guarantees that your data protection strategies are aligned with regulatory requirements and best practices, reducing risk and maintaining legal compliance.

Detailed Reporting

Gain comprehensive insights with detailed reports on backup status, recovery status, job completions, etc. These reports facilitate proactive management.

> "We use BDRSuite for backup purposes and provide backup as a service to our customers. My company has been able to create a good income with a relatively small investment in BDRSuite. The flexible hybrid solution that BDRSuite provides along with reasonable pricing made us decide for this product instead of its competitors.
