

#1 Cost-Effective **Endpoint Backup** for Businesses and MSPs

Backup from Any Location

VMs, Servers, Endpoints, Cloud VMs,
SaaS, DBs/Applications, NAS/File Share

Store Backup Anywhere

On-Premise/Remote Storage,
Your Own Public Cloud, BDRCloud

Centralized Management

BDRCloud-Hosted (or) BDRSuite's
Self Hosted Management Console

BDRCloud for Endpoint Backup & Recovery

BDRCloud for Endpoints offers a robust, reliable, and cost-effective solution for protecting data on desktops, laptops, and other endpoint devices. Simplify and automate the backup process to ensure data protection, minimize downtime, and facilitate easy recovery.

Supported Platforms

Windows: Windows 8.1 and later

Linux: Debian Linux 10.0 and later, Ubuntu 18.04 LTS and later

Mac: MacOS Mojave 10.14 and later, MacOS BigSur 11 and later

Key Features

Windows Endpoint Backup

Seamlessly backup and recover entire Windows machine or individual disks/partitions, or specific files/folders.

Mac Endpoint Backup

Perform file-level backup and recovery, protecting critical-business data on your Mac.

Automated Backup Scheduling

Automate backups with flexible scheduling options, including every 15 minutes, hourly, daily, or weekly intervals.

Direct-to-Cloud Backups

BDRCloud

Utilize our reliable & secure BDRCloud Storage
BDRCloud on Wasabi | BDRCloud on Amazon S3

Bring Your Own Cloud

Use your existing Private/Public Cloud Storage
**Amazon S3 | Azure Blob | Google Cloud | Wasabi
Backblaze | MinIO | Other S3 Compatible Storage**

Linux Endpoint Backup

Backup the critical files and folders on your Linux Endpoints, ensuring comprehensive data protection.

Incremental Backups

Efficiently backup only changed blocks, minimizing storage use and speeding up backup processes.

Cloud-based Management Console

Manage and monitor all your backups from BDRCloud-hosted centralized management console, accessible from anywhere.

Flexible Storage Options

Store backups on BDRCloud hosted on Wasabi or S3, or use your own public cloud like S3, Azure Blob, Google Wasabi, Backblaze B2, MinIO, or other S3-compatible storage.

Flexible Recovery Options

Restore the backed up endpoints the way you need it - entire machine, specific disk/volume, individual files/folders or application items.

Ransomware Protection & Recovery

Protect your data against ransomware with immutable backups and quickly recover from attacks.

Advanced Retention Policies

Set data retention policies to comply with regulatory requirements and organizational needs.

Retention & Compliance

Establish data retention policies to comply with regulatory requirements and organizational needs.

Secure Data Transmission

Protect data during transfer with efficient encryption, securing sensitive information from breaches and unauthorized access.

Backup Job Template

Simplify backup job creation with predefined job templates that come pre-configured, requiring only the selection of specific hosts.

Remote Backup

Enable backup from any network or geographic location, providing flexibility for distributed environments and remote operations.

Highly Rated
Backup Solution by Customers,
MSPs, Channel Partners

“ We use BDRSuite for backup purposes and provide backup as a service to our customers. My company has been able to create a good income with a relatively small investment in BDRSuite. The flexible hybrid solution that BDRSuite provides along with reasonable pricing made us decide for this product instead of its competitors.
